

ENCO's innovative, user-friendly UN/DOT approved DrumPack™ collapsible container is manufactured from heavy-duty polypropylene and is UV coated to stand up to rugged outdoor conditions. Hard-wall technology provides rigidity for easy filling and is ideal for use in confined spaces.

The DrumPack is available in either a 30 gallon (113 liter) or 55 gallon (208 liter) container and is used for lab pack applications, sorbent spill kits, or satellite waste collection areas. Economical and efficient, the DrumPack can replace a traditional 30 gallon or 55 gallon drum.

DOT/UN Approved DrumPack Collapsible Container
